

Deepak Varuvel Dennison

 ddeepak95.com |  dv292@cornell.edu

Research Interests

My research is focused on **developing and evaluating AI-supported Learning and Knowledge Sharing Systems for the Global Users**. I combine technical & software engineering skills with a mixed-methods research approach, drawing on qualitative inquiry, data science, and NLP techniques to understand multifaceted human-AI interactions. Broadly, I am interested in **Human-Computer Interaction (HCI)**, **Human-AI Interaction (HAI)**, **Responsible AI (RAI)**, and **Learning Sciences**.

Education

Cornell University , PhD in Information Science	Aug'24 - Present
Stanford University , MS Learning Design and Technology	Aug'22 - Aug'23
Ashoka University , PG Diploma in Liberal Studies	Jun'17 - Jun'18
SSN College of Engineering , BE Biomedical Engineering	Jun'12 - May'16

Experience

Research Intern , Microsoft Research	Jun'25 - Aug'25
Examined how culturally aligned AI systems are developed for social good applications to support learning and knowledge sharing in diverse global environments.	
Research Assistant , Stanford Institute for Human-Centered Artificial Intelligence	Jun'23 - May'24
- Built EdTech tools leveraging AI technologies for supporting teachers and students in their classroom teaching/learning processes. - Built the AI-Feedback feature for Code In Place, a large-scale coding course offered by Stanford, to provide automated feedback to section leaders and students leading to improvement in learning outcomes. - Developed a web-based learning tool to empower students to utilize LLMs critically and effectively in their writing processes.	
Operations & Technology Manager , Infant Jesus Matric Hr Sec School	Jul'18 - Jul'22
- Handled and optimized the operations of a K-12 school with 1200 students by integrating technology-enabled operational processes and pedagogical enhancements. - Received several awards for designing and implementing initiatives for nurturing maker culture and improving reading ability among students across India.	
UI/UX Designer , Zoho Corporation	Jun'16 - Jun'17
Designed user-centric interfaces for an IT-helpdesk software that caters to around 100,000+ teams worldwide.	

Technical Skills

- Web Development:** Javascript Frameworks(Next, React, Astro), Streamlit, Databases (Firestore, Supabase)
- Scripting & Automation:** Python, Node.js, Appscript, AWS Lambda, GC Functions
- UI/UX Design:** Figma, Adobe XD, Balsamiq
- Prototyping:** Lasercutting, 3D Printing, Raspberry Pi, Arduino
- Content Creation:** Photoshop, Illustrator, InDesign, Premiere Pro, After Effects, Audition, LaTeX

AIED2023 Workshop: Equity, Diversity, and Inclusion in Educational Technology Research and Development

Awards

GSE Fellowship, Stanford University	2023
UNLEASH Plus Finalist, UNLEASH	2022
Winners - Open Innovation Challenge, Government of Tamil Nadu	2022
Winners - Youth for Earth, The Climate Reality Project	2021
Star Educator 2020 - Excellence in Digital Innovation, Learning Matter	2020
Mother Teresa Fellow, Center for Social Impact & Philanthropy, Ashoka University	2019
Torchbearer, Young India Fellowship, Ashoka University	2018
Academic Top Rank Holder, Anna University	2016

Other Selected Projects

CESTA Digital Anthology, Stanford University, Software Architect

Jan’24 - May’24

- Designed and developed the CESTA Digital Anthology System from scratch to facilitate the publication of Stanford Center for Spatial and Textual Analysis’s scientific works by both faculty and students.
- Architected a Quarto-based system integrated with GitHub and designed processes that enable both technical and non-technical authors to contribute to the anthology.

Tales For Tweens, Creator

Sep’21 - July’22

- Created an inclusive, progressive storybook for young Indians on themes like body positivity, financial literacy, climate change, and mental health — selling over 2,000 copies.

GCC COVID-19 Vaccination Portal, UI/UX Lead

Jun’21 - Aug’21

- Designed the COVID-19 vaccination appointment portal of Greater Chennai Corporation in partnership with the state government.
- The portal facilitated over 2,19,000 vaccinations and was awarded by the government for its effectiveness and ease of use.

Election Promises, Tech & Design Lead

Feb’21 - May’21

- Developed a platform that allowed voters to compare party promises and candidate information during the Tamil Nadu 2021 Legislative Assembly Elections, facilitating informed voting choices.
- Designed marketing creatives and assisted in content translation from English to Tamil and vice versa. The platform reached 12 million+ views and was widely acclaimed.

Service

Admissions Representative, Information Science Graduate Student Organization

2025

Student Volunteer, Thought Summit: LLMs & Society

2025

Reviewer, ACM CHI

2025, 2026

Research Consultant, Pratham Education Foundation

2024

Organizer, GSE Design Collective, Stanford University

2023

Impact Officer, Global Shapers Hub - Chennai, World Economic Forum

2021
